Dear Member of European Parliament,

We, the implementing partners of the pan-European [project “From Citizen Involvement to Policy Impact” \(U-Impact\)](#) and our partner organizations across the EU and beyond, are **deeply concerned by the lack of a common European approach to the current migrant crisis in Europe** and by the threat this poses to such founding principles of the Union as solidarity and freedom of movement.

As representatives of organizations working for increased impact of citizens in the policy making process in the EU we are especially worried by what we believe is the **inadequate involvement of the EU institutions with the European citizens on issues such as creating a common migration policy and reviewing the mechanisms which guarantee freedom of movement.**

On behalf of ProInfo Foundation, Bulgaria, European Citizen Action Service AISBL, Belgium, Partners Albania, Center for Change and Conflict Management, NGO Support Centre, Cyprus, IREX Europe, France, Avatud Eesti Fond / Open Estonia Foundation, Estonia, Cittadinanzattiva Onlus, Italy, Asociația Națională a Birourilor de Consiliere pentru Cetățeni, Romania and Fundación Ciudadanía, Spain and our partners we would like to request your personal support **for active involvement of the European Parliament with the European citizens in all EU member states**, candidate countries and the citizens of the European Neighborhood in discussing and finding policy decisions which will uphold solidarity and free movement for all.

Our organizations are ready to participate with expertise in the development of such policies and we urge you to stand for citizen participation in the decision-making process on these important issues.

Yours Sincerely,

ProInfo
